AGENDA ITEM #: VIII.2.

ACTION: Authorization to Enter into Contract for Services with Kirk S. Brainerd (Architect) to Prepare Construction Documents, and Provide Construction Administration Services for the Valley View Charter Montessori Permanent Modular Classroom Project.

SITUATION:

In planning for the 2020/2021 school year and in response to the DSA approved permanent modular classroom not being available before the first day of planned instruction, on June 24, 2020, the Governing Board authorized staff to enter into a contract with Abide Builders, Inc. for the Valley View Charter Montessori Rental Classroom and Associated Sitework Project, which placed a temporary classroom on the Valley View Charter Montessori School site for use during the 2020/2021 school year. The District will replace the temporary classroom over the summer in 2021. As a result, the District must enter into a contract with an Architect to prepare construction documents, and provide administration services, for placement of the permanent modular classroom, and the associated site work. The District is also bringing forward a separate item to the Board to authorize staff to enter into a contract with the modular classroom manufacturer for the supply and installation of the modular classroom required for the Valley View Charter Montessori Permanent Modular Classroom Project.

PLAN:

The plan is to have the Governing Board authorize staff to enter into a contract for services with Kirk S. Brainerd (Architect) to prepare construction documents, and provide administration services for the Valley View Charter Montessori Permanent Modular Classroom Project.

FISCAL IMPACT:

The cost of these services is a fixed fee of \$20,000. There is no impact on the General Fund. Funding will come from Fund 49. These funds can only be expended on Valley View Charter Montessori, or a pro-rata share of District-Wide projects benefiting Valley View Charter Montessori.

SUPERINTENDENT'S RECOMMENDATION:

The Superintendent recommends that the Governing Board authorizes staff to enter into a contract for services with Kirk S. Brainerd (Architect) to prepare construction documents, and provide administration services for the Valley View Charter Montessori Permanent Modular Classroom Project.

AGENDA ITEM #: IX.3.

ACTION: Approve Resolution No.21-07 Authorizing Piggyback Contract with American Modular Systems, Inc. for the Purchase of Modular Classroom Buildings as a Component of the Valley View Charter Montessori Permanent Modular Classroom Project

SITUATION:

Public Contract Code §20111 requires school district governing boards to competitively bid and award any contracts, other than construction contracts, involving an expenditure of more than \$95,200.00 to the lowest responsive and responsible bidder.

Public Contract Code §20118 provides that, notwithstanding the provisions of Section 20111, a Governing Board may, without advertising for bids and upon a determination that it is in the best interest of the District, authorize staff to contract, lease, requisition, or purchase order off of another public corporation or agency, to lease data-processing equipment, or to purchase materials, supplies, equipment, automotive vehicles, tractors *and other personal property* for the District in the manner that the other public corporation or agency is authorized to make the leases or purchases from a vendor (piggyback).

The Buckeye Union School District in planning for the 2021-2022 school year has determined that it will be necessary to add the following relocatable classroom to the Valley View Charter Montessori School site and has determined that it is in the best interest of the District to proceed with the purchase of the relocatable classrooms using the piggyback process set forth in Section 20118:

- 1) 1 each, 30x32 DSA Approved Classroom

PLAN:

To have the Board adopt Resolution No.21-07, authorizing staff to enter into a piggyback contract for the acquisition of the above-identified classroom with American Modular Systems, Inc. utilizing the Reef-Sunset Unified School District Facility Supply Services Contract at Various Sites Piggy-Back Bid to ensure timely manufacturing and delivery of the building for project completion before the start of the 2021-2022 school year. Staff is also bringing forward a separate item for contracting with an Architect for the preparation of construction documents and contract administration services for the Valley View Charter Montessori Permanent Modular Classroom Project. Once the contract documents have been approved by the California Division of State Architect, staff will bring forward an item to the Board requesting authorization to bid the site work required in addition to the purchase contemplated by this item, and ultimately request

approval from the Board to award the site work contract to the lowest responsive and responsible bidder.

FISCAL IMPACT:

1 each, 30x32 DSA Approved Classroom: (Includes foundation, casework, interior finishes and installation)	\$ 269,380.00
Contingency (10%)	\$ 26,938.00
	<hr/> \$ 296,318.00

There is no impact on the General Fund. Funding will come from Fund 49. These funds can only be expended on Valley View Charter Montessori, or a pro-rata share of District-Wide projects benefiting Valley View Charter Montessori.

SUPERINTENDENT'S RECOMMENDATION:

The Superintendent recommends that the Board adopt Resolution No.21-07, authorizing staff to enter into a piggyback contract for the acquisition of the above-identified classroom for the Valley View Charter Montessori Permanent Modular Classroom Project through the Reef-Sunset Unified School District and its Agreement with American Modular Systems, Inc. awarded on August 25, 2018.

Any review performed by AMS shall be considered a courtesy to assist with the overall project success and does not remove the contractor's responsibility to comply with plans and specifications. Contractor performing foundation installations is responsible to ensure foundation is completed per plans, specifications, and meets tolerances for modular buildings as described in AMS drawings. In the event engineering is required to accommodate errors or omissions, rework or additional coordination/engineering, all expenses shall be reimbursed to AMS. In addition, a \$1,500 per hour back change will occur if a delay due to grinding, leveling, etc... is required at the time of installation.

Embeds must be inspected by a DSA approved welding inspector in accordance with project approved Testing and inspections and per AMS DSA approved drawings.

Point of Connection Drawings (POC) as coordinated with the AOR and design team, supersedes any previous drawings and/or communications regarding POC's, including the DSA approved drawings.
