## E-RATE SUPPLEMENTAL TERMS AND CONDITIONS

Signed copy to be returned with bid response.

The Telecommunications Act of 1996 established a fund by which Schools and Libraries across the Country could access discounts on eligible telecommunications products and services. The program is commonly known as the E-rate Program. The eligibility for discounts on internet access, telecommunications products and services, internal connection products, services and maintenance is determined by the Federal Communications Commission (FCC). Funding is made available upon application approval by the Schools and Libraries Division (SLD) of the Universal Service Administrative Company (USAC), which was established by the Act. The amount of discount is based on the numbers of students receiving free and reduced price meals.

### 1) **E-RATE CONTINGENCY**

The project herein may be contingent upon the approval of funding from the Universal Service Fund's Schools and Libraries Program, otherwise known as E-rate. Even after award of contract(s) and/or E-rate funding approval is obtained, the District may or may not proceed with the project, in whole or in part. Execution of the project, in whole or in part, is solely at the discretion of the District.

### 2) **SERVICE PROVIDER REQUIREMENTS**

The District expects Service Providers to make themselves thoroughly familiar with any rules or regulations regarding the E-rate program.

- a. Service Providers are required to be in full compliance with all current requirements and future requirements issued by the SLD throughout the contractual period of any contract entered into as a result of this RFP.
- b. Service Providers are responsible for providing a valid SPIN (Service Provider Identification Number). More information about obtaining a SPIN may be found at this website: <http://www.usac.org/sl/service-providers/step01/default.aspx>
- c. Service Providers are responsible for providing a valid Federal Communications Commission (FCC) Registration Number (FRN) at the time the bid is submitted. More information about obtaining an FRN may be found at this website: <https://fjallfoss.fcc.gov/coresWeb/publicHome.do>
- d. Service Providers are responsible for providing evidence of FCC Green Light Status at the time the bid is submitted. Any potential bidder found to be in

Red Light Status must provide an explanation of the steps it is undertaking to be removed to Red Light Status and the expected timeframe for resolution. A Service Provider's sustained Red Light Status may be grounds for contract termination as it could prohibit the Service Provider from providing E-rate discounts in a timely manner which would cause harm to the Applicant. More information about FCC Red and Green Light Status may be found at this website:

[http://www.fcc.gov/debt\\_collection/welcome.html](http://www.fcc.gov/debt_collection/welcome.html)

- e. Products and services must be delivered before billing can commence. At no time may the Service Provider invoice before July 1, 2020.
- f. Prices must be held firm for the duration of the associated E-rate Funding Year(s) or until all work associated with the project is complete (including any contract and USAC approved extensions).
- g. Goods and services provided shall be clearly designated as "E-rate Eligible". Non-eligible goods and services shall be clearly called out as 100% non-eligible or shall be "cost allocated" to show the percentage of eligible costs per SLD guidelines.
- h. Within one (1) week of award, the awarded Service Provider must provide the District a bill of materials using a completed USAC "Item 21 Template". Subsequent schedules of values and invoices for each site must match Item 21 Attachment or subsequent service substitutions. A summary sheet must also be provided to provide the cumulative amount for all sites.**
- i. In the event of questions during an E-rate pre-commitment review, post-commitment review and/or audit inquiry, the awarded Service Provider is expected to reply within 3 days to questions associated with its proposal.
- j. The awarded Service Provider is required to send copies of all forms and invoices to the District prior to invoicing USAC for pre-approval. Failure to comply with this requirement may result in the District placing the vendor on an "Invoice Check" with the USAC  
<http://www.usac.org/sl/applicants/step07/invoice-check.aspx>
- k. Services providers must comply with the FCC rules for Lowest Corresponding Price ("LCP"). Further details on LCP may be obtained at USAC's website: <http://www.usac.org/sl/service-providers/step02/lowest-corresponding-price.aspx>

### **3) SERVICE PROVIDER ACKNOWLEDGEMENTS**

- a. The Service Provider acknowledges that no change in the products and/or services specified in this document will be allowed without prior written approval from the district and a USAC service substitution approval with the exception of a Global Service Substitutions.
- b. The Service Provider acknowledges that all pricing and technology infrastructure information in its bid shall be considered as public and non-confidential pursuant to §54.504 (2)(i)(ii).
- c. The Service Provider acknowledges that its offer is considered to be the lowest corresponding price pursuant to § 54.511(b). Should it not be the lowest corresponding price, the service provider must disclose the conditions leading to the applicant being charged in excess of lowest corresponding price.
- d. This offer is in full compliance with USAC's Free Services Advisory <http://www.usac.org/sl/applicants/step02/free-services-advisory.aspx>. There are no free services offered that would predicate an artificial discount and preclude the applicant from paying its proportionate non-discounted share of costs. The service provider agrees to provide substantiating documentation to support this assertion should the applicant, USAC, or the FCC request it.
- e. The Service Provider attests that its offer does not violate the FCC's October 29, 2019 Report and Order, Notice of Proposed Rulemaking, and Order ([FCC-CIRC1911-01](#)) addressing issues of "National Security Threats to the Communications Supply Chain Through FCC Programs" which "prohibits the use of USF funds to purchase or obtain any equipment or services produced or provided by a company posing a national security threat to the integrity of communications networks or the communications supply chain."

### **4) STARTING SERVICES/ADVANCE INSTALLATION – Category 1 Services**

The annual E-rate Funding Year begins on July 1 and expires on June 30 of each calendar year. Regardless of the contract "effective date", E-rate eligible goods and/or services requested in this RFP shall be delivered no earlier than the start of the 2020 funding year (July 1, 2020). If Category 1 services (Telecommunication Services and Internet access) will begin on or shortly after July 1 of a funding year, the service provider, in some cases, may need to undertake some construction and installation work prior to the beginning of that funding year. Within the limitations

indicated below, the infrastructure costs of a service provider can be deemed to be delivered at the same time that the associated Category 1 services begin. That is, if services begin on July 1, then the delivery of service provider infrastructure necessary for those services can be considered as also delivered on July 1. However, NO INVOICING can take place prior to July 1 of the associated Funding Year.

### **EARLY FUNDING CONDITIONS**

#### **Category 1**

There are four conditions that must be met in order for USAC to provide support in a funding year for Category 1 infrastructure costs incurred prior to that funding year.

- *Initiation of installation cannot take place before selection of the service provider pursuant to a posted Form 470 and in any event no earlier than six months prior to July 1 of the funding year.*
- *The Category 1 service must depend on the installation of the infrastructure.*
- *The underlying Category 1 service cannot have a service start date prior to July 1 of the funding year.*
- *No invoices can be submitted to USAC for reimbursement prior to July 1 of the funding year.*

For more information, please refer to the FCC Order involving the Nassau County Board of Cooperative Educational Services ([DA 02-3365](#) , released December 6, 2002). This FCC decision only applies to Priority 1 services (telecommunications services and Internet access).

The complete text can be found at the following URL:

<http://www.usac.org/sl/applicants/step05/installation.aspx>

#### **Category 2**

There is one condition that allows USAC to provide support in a funding year for Category 2 installation costs incurred prior to that funding year.

- *We also amend our rules for category two non-recurring services to permit applicants to seek support for category two eligible services purchased on or after April 1, three months prior to the start of funding year on July 1. This will provide schools with the flexibility to purchase equipment in preparation for the summer recess and provide the maximum amount of time during the summer to install these critical networks.*

For more information, please refer to the FCC Report and Order and Further Notice of Proposed Rulemaking ([FCC 14-99](#) , released July 23,

2014). This FCC decision only applies to Category 2 services (Internal Connections).

However, NO INVOICING can take place prior to July 1 of the funding year.

**5) INVOICING**

- a. The Service Provider agrees to bill and receive a portion of the payment for the provisions of goods and services described herein directly from USAC via the Form 474 Service Provider Invoice (SPI). The District will only be responsible for paying its non-discounted share of costs and does not intend to use the BEAR process (Form 472). The maximum percentage the District will be liable for is the pre-discount amount minus the funded amount as shown on the FCC Form 471 Block 5 and any identified ineligible costs. Upon the successful receipt or posting of a Funding Commitment Decision Letter from the SLD and submission, certification and USAC approval of Form 486, the District shall pay only the discounted amount beginning with the billing cycle immediately following said approval. Alternatively, should the District decide that it is in the best interest of the District to file a Form 472, the District will inform the Service Provider of its intent.
- b. All Service Provider invoicing to USAC must be completed within 120 days from the last day of service. Should the Service Provider fail to invoice USAC in a timely manner, the District will only be responsible for paying its non-discounted share.

**6) FCC/SLD AUDITABILITY**

The E-rate program requires that all records be retained for at least ten (10) years from the last date of service provided on a particular funding request. Respondent hereby agrees to retain all books, records, and other documents relative to any Agreement resulting from this RFP for ten (10) years after final payment. The District, its authorized agents, and/or auditors reserves the right to perform or have performed an audit of the records of the Respondent and therefore shall have full access to and the right to examine any of said materials within a reasonable period of time during said period.

**7) PROCUREMENT OF ADDITIONAL GOODS AND/OR SERVICES/COTERMINOUS EXPIRATION**

During the term of any Agreement resulting from this RFP, the District may elect to procure additional or like goods and/or services offered by the Respondent. Such services shall be negotiated and obtained via an official amendment to this Agreement and approval by the District's

Governing Board. All terms, conditions, warranties, obligations, maintenance and support of said goods or services shall have a coterminous expiration date with the original date of this Agreement. The District shall not enter into a separate Agreement for said goods or services. Respondents must state in their proposal that they acknowledge, accept and are in agreement with coterminous expiration conditions.

I, the undersigned, as an authorized agent of \_\_\_\_\_

## REQUESTED SERVICES AND DISTRICT TOPOGRAPHY

Buckeye Union School District (“BUSD”) is soliciting proposals for private (non-shared) Wide Area Network (WAN) services, specifically a fiber-connected metro-area layer 2 backbone network. BUSD currently has a WAN with 10 school and operational facilities including the District Office and the Hub Circuit for the County Office of Education connected through AT&T. The requested WAN services will provide connectivity for all BUSD school sites and facilities. A list of these sites, street addresses and required Committed Information Rates (“CIR”) appear in “**Appendix A**” of this RFP. At present, all circuits are connected with a multi-point to multi-point topography.

This project may be contingent upon approved project funding from the federal E-rate program (Schools and Libraries Division, or “SLD”). BUSD may or may not undertake this project at its sole discretion. In addition, BUSD will require that the awarded service provider ensure that all eligible components of service are filed with the California Public Utilities Commission (CPUC) and are eligible for the California Teleconnect Fund (CTF) discount.

Service Providers will bid only Category 1 eligible products and services necessary to deliver the requested services.

The District may consider contracts with flexible terms to allow for growth/reduction in services to accommodate an increase/decrease in the number of sites, users, and/or bandwidth.

Service Providers submitting proposals in response to this FCC Form 470 must be in compliance with the rules and orders governed by the Federal Communications Commission. Failure to be in compliance and remain in compliance may result in the denial of discount funding, and/or cancellation of funding commitments and/or contracts, and/or could result in civil or criminal prosecution by law enforcement authorities.

Service Providers submitting proposals must do so in good faith of compliance with the Lowest Corresponding Price (LCP) Rule (see 47 CFR Part 54 Section 54.500(f)). Service Providers submitting proposals must be in full compliance with USAC’s Free Services Advisory <http://www.usac.org/sl/applicants/step02/free-services-advisory.aspx>. Any offering of free services must be clearly identified in service providers’ bids.

Service Provider invoicing to USAC must be completed within 120 days from the last day of service. Should the Service Provider fail to invoice USAC timely, Applicant will only be responsible for paying its non-discounted share. The Service Provider acknowledges that all pricing and technology infrastructure information in its contract shall be considered as public and non-confidential pursuant to CFR Part 54 Section 504 (2)(i)(ii).

## WAN REQUIREMENTS –

Service must be capable of delivering a minimum (CIR) of 250Mbps/second (“Mbps”) to each BUSD site and 2Gbits/second for the Hub Circuit.

- a. The El Dorado County Office of Education (EDCOE) data center located at 6767 Green Valley Road, Placerville, CA 95667 is to serve as Hub Circuit for the network. At present, nine (9) BUSD sites are connected via 250Mbps/second service connections including the District Office, and one (1) site is connected with a 2Gbits/second service connection (Hub Circuit). With this RFP, BUSD intends to maintain or increase current aggregate bandwidth to sites (See “Appendix A” for details). The assignment of schools to particular network segments for bundling is at the discretion of the service provider. At present, all circuits are connected with a multi-point to multi-point topography.
- b. All nine (9) BUSD sites including the District Office shall have a minimum data connection CIR of 250 Mbps; we would also like pricing for each of these sites to have 500Mbps, and 1Gbps. The County Office of Education (Hub Circuit) will require a minimum data connection CIR of 2Gbps; we would also like pricing for this location to have 5Gbps, and 10Gbps. The proposed network needs to maintain a multi-point to multi-point topography.
- c. BUSD desires the ability to vary bandwidth in the future to meet demand. Proposals may include rates for higher bandwidth connections and should describe the vendor’s ability to scale the proposed solution to meet greater bandwidth demands.
- d. The Contractor/Carrier shall deliver the requested CIR at full bandwidth at each school directly to the District Data Center on a full availability basis, 24/7. This service can be aggregated at the design of the carrier so as not to have 8 individual circuits terminating directly at the District Data Center.
- e. The service handoff at each site will be 1000base-T, 1000base-X, or 10,000base-X Ethernet, as appropriate for the site, delivered to each site’s Main Distribution Facility (“MDF”). The handoff must use standards-compliant category 6 twisted pair copper cabling or multi-mode fiber as applicable.
- f. The service hand-off at all sites shall terminate on an RJ45 standard Ethernet jack with a 1 Gigabit full duplex handoff, or fiber equivalent compatible with LC-style GBIC connectors. The precise site location of the MPOE or DEMARC, or “handoff point” shall be determined by BUSD Network and Engineering staff at the sites listed in **Appendix “A”** of this RFP.
- g. The vendor shall specify that this network is a managed solution and the vendor will provide all necessary hardware and software accordingly. As part of the

proposal, the vendor will make known the space requirements for installed equipment at sites and District Office. Network outage resolution should be coordinated with BUSD technical staff.

- h. The vendor must provide easy access to help desk and repair services. A clear, documented procedure must be defined for severe problem escalation with appropriate response times delineated in proposal. The vendor will provide critical alerts to BUSD Technical Contacts via email, and notification of service outages via telephone to BUSD Technical Contacts along with status and estimated time of restoral (ETR). This alert service will be maintained for the duration of the contract.
- i. The circuits shall be capable of carrying multiple protocols such as IP Data, Voice over IP (VoIP) telephony, streaming digital video, teleconferencing, etc. Jitter and latency shall be within industry accepted limits for typical services of these types. The WAN must support the transmission of QoS (“Quality of Service”) tags implemented by BUSD between endpoints.
- j. The network must be fully operational by **July 1, 2020**. The term “fully operational” is defined as error free network connectivity at the specified CIRs, delivered to all sites without failures for at least 72 hours. Vendor must provide certification reports of CIR, jitter, latency, and interface error metrics for each endpoint.
- k. Contract must provide cancellation of services without financial penalties if a school is closed. District may cancel services to a school without penalties after a 30-day notice to vendor.

## QUALIFICATIONS

All vendors submitting proposals must demonstrate the ability to participate in the E-rate Program (i.e. must possess a SPIN number).

## CONTRACT TERM

Buckeye Union School District will be seeking a contract length of three (3) years with the option of extending the contract with two (2) – one (1) year term contracts and five (5) years. Funding for this project will be Category 1 E-rate Funding at the District discount rate. Any installation costs associated with the service delivery may be amortized over initial term and is to be included within the monthly service cost.

***Winning vendor(s) will NOT submit any billing or perform any work BEFORE July 1, 2020, and not without the prior written acceptance of BUSD.***

## TRANSITION PLAN

As the cut-over date for any new carrier is required to be on July 1, 2020, the District requires a transition plan to be provided with any proposal response from responsible suppliers that are not the current carrier. The plan is to include the resources to be dedicated to the transition, all costs associated with the transition, a timeline of actions with a completion target date for the supplier and for the District transition team. The transition plan is to outline the expectations the supplier team would have of the District and the information or task the District is to provide the supplier and the date any information or task would be required.
